PROFESSIONAL SUMMARY

Computer Science Fast-Track graduate with Database Technology and Information Security Management specializations, currently awaiting formal Master's graduation. Experienced in BI reporting, data analytics, Python automation, predictive modeling, and security-aware data practices across financial services and logistics operations.

TECHNICAL SKILLS

Programming & Automation: Python, SQL, DAX, Excel VBA, Google Apps Script, Bash, Cron
BI & Data Analytics: Power BI, Tableau, Looker Studio, Excel, Google Sheets, semantic modeling
Data Engineering & Cloud: HiveQL, Hadoop, Spark, ODBC, GCP, AWS, Alibaba Cloud, Deepnote, Hex, Git
Data Science: TensorFlow, Django, Machine Learning, Deep Learning, Time-Series Forecasting
Cybersecurity & Risk: IT Risk Management & Audit, IT Governance, Role-Level Access Control, Wireshark, Kali Linux

PROFESSIONAL EXPERIENCE

Shopee (SPX) Express Jakarta, Indonesia
Feb 2026 – Apr 2026
Data Analyst, BPO Management Division

- Engineered a First Mile fulfillment report using Python and Apps Script, transforming an 8-hour manual process into a 30-minute automated workflow utilized directly by the Division Lead as an operational intelligence tool to direct regional operations during the Ramadan campaign.
- Spearheaded a time-study and FTE (Full-Time Equivalent) analysis for the Data Analytics team; successfully pitched workload reforms directly to the General Manager, catalyzing the deployment of a support manager and establishing a framework for future manpower planning.
- Managed 53 daily and hourly Python automation scripts across Middle and Last Mile operations; architected the migration of 22 scripts from Deepnote to Hex, significantly reducing downtime, 503/429 errors, and escalation frequency.
- Maintained nationwide Last Mile hiring trackers across 9 regions and 15 vendors, successfully managing a throughput of 1,500–2,000 daily courier candidates and resolving a data-flow bottleneck to reduce onboarding turnaround from one week to a single day.

Toyota Astra Financial Services (TAFS) Jakarta, Indonesia
Jul 2024 – Sep 2024
Reporting Analyst Intern, Risk Management Division

- Supported enterprise-level risk & compliance (UU PDP, POJK 44, COSO, ISO 27001) dashboards consumed daily by analysts, managers, and division heads to monitor performance across sales, services, and accounts receivable.
- Executed a license-cost optimization initiative by fully migrating 20+ Tableau dashboards (spanning 7-8 reporting pages) into Power BI, refactoring legacy expressions into DAX-compatible logic.
- Created 100+ production-used DAX measures and semantic model logic to ensure reporting consistency.
- Configured ODBC-to-Power BI scheduled refreshes and role-level access control (RLS) for varying departmental roles, successfully clearing a one-month dashboard development backlog within a 3-month timeline.

Data Scientist Intern (MSIB Kampus Merdeka), Human Resource & General Service Division Feb 2024 – Jun 2024

- Designed a predictive recruitment prototype using Python and Logistic Regression to classify candidate pass/fail outcomes and conduct hiring feasibility analyses.
- Processed 10,000+ candidate records through comprehensive data cleaning, feature engineering, and model training, evaluating performance via F1-score and AUC metrics.
- Built 7+ Power BI dashboards for recruitment, people development, and incentives, supporting daily workflows for HR managers and executive presentations to division leadership.

SELECTED PROJECTS & PUBLICATIONS

Practical Uncertainty Estimation for IHSG Forecasting (ISIBER 2026): Authored DOI-published research and recipient of the 4th Runner-Up Best Paper Award (doi.org/10.1109/ISIBER68248.2026.11470012).

OWASP WSTG Security Testing Automation: Developed Python and AI-assisted scripts (OpenRouter) to automate web application security testing procedures based on the OWASP Web Security Testing Guide v4.0.

EDUCATION

BINUS Graduate Program Expected Aug 2026
Master of Computer Science (Information Security Management) | GPA: 3.99 Jakarta, Indonesia
BINUS University Aug 2025
Bachelor of Computer Science (Database Technology) | GPA: 3.92 (Summa Cum Laude) Jakarta, Indonesia

CERTIFICATIONS

SQL Advanced (HackerRank) | SAP Analytics Cloud Training (ASEAN DSE) | Alibaba Cloud Certified Associate (ACA)
